

Sheepy Parish Council

Reserves Policy 2026

Sheepy Parish Council will ensure that it keeps a working capital of at least £10,000 and this will be reviewed on an annual basis, the savings will also be kept at circa £30,000. The reserve ensures the Parish Council have running costs for one year in respect of Clerk's salary, insurance, grass cutting, street lighting, emptying dog and waste bins and hire of meeting room. Having savings (£30,000) on top of the reserve amount ensures the Parish Council can plan for any large expenditure the Parish Council feels will benefit the Parish.
